Dear Professor Xu

Editor in Chief, International Journal of Management Science and Engineering Management

Based on your email regarding the results of the initial review of my paper, please find enclosed my manuscript entitled "The Effect of Corporate Governance Implementation on Earnings Quality and Its Impact on Firm Performance," which I request you to consider for publication as an article in the International Journal of Management Science and Engineering Management.

I have revised my paper as the reviewers suggest as follows:

1. In the background we add arguments and explanations related to the focus paper to make it more business and management flavored.
2. We also add a comparison of the development of GCG implementation from 2016 and 2018 based on the ACGA report which shows that the implementation of GCG in Indonesia is still very weak, so it is more apparent that this research is important to provide direction for investors in making business decisions in Indonesia.
3. In the literature section we add references from current research from reputable sources
