05, November, 2020 Subject: **6** Acceptance Letter This letter is to confirm that your below-mentioned papers have been accepted for publication in the International Journal of Criminology and Sociology in Volume 9, 2020. Regards, Ms. Stella Dorothy Sr. Publication Manager Lifescience Global Canada, Inc. www.lifescienceglobal.com Dear Prof. Arfian, 1. "Impact of the Meaningfulness of Life on the Daily Activities of Industrial Workers"

Certificate of Proofreading **8** Impact of the Meaningfulness of Life on the Daily Activities of Industrial Workers This document certifies that the manuscript listed above was edited for proper English language, grammar, punctuation, spelling, **1** and overall style by one or more of the highly qualified native English speaking editors at Native Proofreading Service (NPS) E S T . 2 0 1 3 Manuscript Title Author(s) Date Issued November 01, 2020 Native Proofreading Service (NPS) www.native-proofreading.com Arfian, Diana Harding, Marina Sulastiana, Anissa Lestari Kadiyono

2nd, October, 2020 Subject: Acceptance and Comments for Revision This is with reference to your manuscript entitled "Impact of Meaningfulness of Life on Daily Activities Industrial Workers" submitted for publication in **11** the International Journal of Criminology and Sociology. It is my pleasure **6** to inform you that the referees have suggested to accept your manuscript after some minor revision. You are required to revise your manuscript according to the referees' comments below, in addition to these comments also please have a look at Editorial Requirements at 'Authors Guidelines' particularly in term of reference section when revising your manuscript. We greatly, anticipate submission of your revised manuscript (in MS-Word or LaTeX) in a week. Reviewer comments: 1. This article is not using correct English. This article should proof read by the native speaker. Submit it again and attach proof of certificate. 2. Abstract section contains errors, there is no LISREL-SEM method. There is only a structural equation model with the LISREL software. Describe in detail what kind of SEM model is used, is it PLS or OLS? See: [1] 3.

Information on the value of goodness of fit (GoF) needs to be added to the abstract.

Explain properly and correctly. 4. Reference styles and templates do not follow the IJCS

format 5. Add a description of the attitude of the worker [2], [3]. 6. The method part is not

explained. Add SEM method description See: [4], [5], [6], [7], [8] or latent regression. See:

[9], [10] 7. Figure 2 is no longer necessary because the information in Table 1 is sufficient.

Likewise, with other figures. Existing information does not need to be explained twice. 8.

Describe the latent value that has been obtained 9. In some terms there are words that are

not 'English'. The author needs to be careful before submitting the paper. Additional
