The sender is "N ARUN KUMAR <arun.nura@gmail.com>". The recipient is "Kepada: Dewi Faeni". The email body contains the following text:

Dear Dr. Dewi,

I would like to inform you that only a few files needed the following corrections. I have attached about 17 of your papers. There were totally 25 papers. The remaining 8 papers are ok to proceed. Please correct the following for each of these 17 papers and return back to me. Then it will go to immediate publication.

1. References are not cited inside the text. Cite them as Superscript.
2. All the references should be in Vancouver Style.
3. Also please check if all the references are in English, before you send me the final files.

I have also sent new journal names and links via whatsapp., we can send the new papers to these new journals. As we already paid to IJPHRD, for these 25 papers we are sticking to IJPHRD.

Arun

Abstract
 This research is a research that focuses on improving the competitiveness and the achievement of students, using hypoinis implementation model is expected to build confidence when competing. Hypoinis is a methodology used in forming a formidable model. The process of behavior formation by using the power of the imagination, so he is developed creative students use the same method. Because it is considered very effective to change the model when competing. This method effectively improves competitiveness and improves student achievement, so they can win in every competition they participate in both national and international Competitions. The type of this research is qualitative and quantitative, the methodology to be used is with the distribution of questionnaires, interviews, observations, event observations, and interview techniques. The population of the study is 9399 students from 200 vocational schools in Central Java, West Java and Jakarta. The number of respondents is a total of 2000 students, the type of sampling is purposive sampling. Hypoinis measuring instrument is almost 25.00 items.
 Keywords: interest, focus, attention, focus, methods of hypoinis, methods of preparation of drug abuse

INTRODUCTION
 The data collected from the Central Business Agency (CBA), showed a sharp decline in the level of educational quality and achievement in the area of educational quality and other achievement. Statistical data indicates declining government of Indonesia since this time step.
 violence ever experienced in an early age provides a fairly powerful multiplier effect, because it may be a lifelong event that affects psychologically for the child personally. For example, give rise to a "weak link" in legal discipline, that are consistent and systematic, is subject to perform.
 The main reason of the low of competitiveness and achievement desire is, among other, developed patterns are just reflecting, students tend to be passive person, so that was about to express interest and less confidence of the ability and potential. If using the philosophy of an elephant, it can be an appropriate analogy. When an elephant takes to the forest by the employee to one hundred of logs which increasingly it more per piece for one full day, the elephant did not feel tired at all. Once the employee brought him home to his house, the elephant was given only one coin which weighing 10 kg in one of his legs, the elephant was not able to secure from the house of
