Dear Herlawati Herlawati

We are pleased to inform you that your paper:

Paper ID: 155

Title: Evaluating the Effects of Mobility Restrictions during COVID-19 on Land Surface Temperature with GIS and Satellite Data

that submitted to the Eighth International Conference on Informatics and Computing (ICIC 2023) has been ACCEPTED for an oral presentation. We cordially invite you to attend by presenting your paper in the ICIC 2023.

It is mandatory to prepare the camera-ready paper as per the instructions listed on the ICIC 2023 website (<https://icic-aptikom.org/2023/>), and your paper will not be published unless the following are done:

1. Revise your paper(s) according to the reviewers' comments. The detailed review is listed below in of this e-mail.
2. The accepted similarity level is a maximum of 20%, which you may check using Turnitin or another similar plagiarism check.
3. Format your camera-ready paper as per guidelines and strictly follow the A4-IEEE format in a pdf file by creating it using IEEE pdf express. (<https://ieee-pdf-express.org/account/Login>). Be noted that the Conference ID for ICIC 2023 is 60109X
4. Fill out the registration form that can be accessed from the website mainpage. Submit it, including the proof of your payment and proof of student status when it is relevant (<https://forms.gle/BEgq2Ywc24hAcPP9>).
5. Send your camera-ready paper (in MS Word and PDF) also the presentation file to <https://forms.gle/XrHfc8PVLsUdYN86A>
6. If you attend the Conference virtually, please upload your recording presentation to <https://forms.gle/Q1ZLtV5zcsYYMoZw5>; you can read the instruction here (<https://icic-aptikom.org/2023/hybrid-conference/>)
7. Electronic IEEE copyright form will be sent to the correspondent e-mail for each of your accepted papers.

Please be reminded that the due date for early bird registration is 15 November 2023. At least one author has to register for the conference.

The conference will take place by HYBRID mode from 8-9 December 2023, you can attend the conference on-site in Malang, or you can also attend the conference online if you still have issues and concerns related to the travel difficulties.

All related conference materials can be found at <https://icic-aptikom.org/2023/>. Please let us know if you have any registration questions.

With a warmest regard,

Technical Program Chairs  
Achmad Nizar Hidayanto, Universitas of Indonesia, Indonesia  
Husni Teja Sukmana, UIN Syarif Hidayatullah Jakarta, Indonesia

----- REVIEW 1 -----

SUBMISSION: 155

TITLE: Evaluating the Effects of Mobility Restrictions during COVID-19 on Land Surface Temperature with GIS and Satellite Data

AUTHORS: Herlawati Herlawati, Rahmadya Trias Handayanto, Ika Dewi Sartika Saimima, Muhammad Khaerudin, M. Hadi Prayitno, Prio Kustanto, Ismaniah Ismaniah, Ajif Yunizar Pratama Yusuf and Arman Andrian

----- Overall evaluation -----

SCORE: 1 (weak accept)

---- TEXT:

Below are my comments on this paper:

- The introduction section needs to be motivated better. Why did you need evaluate the impact of movement restriction on land surface temperature?
- What are states of the art related to the impacts of movement restriction on land surface temperature?
- I'm quite confused on how did you evaluate the impacts of mobility restriction on land surface temperature. Did you use measure the correlation? or what?
- What are the implications of your study, both for theory and practice?

----- REVIEW 2 -----

AUTHORS: Herlawati Herlawati, Rahmadya Trias Handayanto, Ika Dewi Sartika Saimima, Muhammad Khaerudin, M. Hadi Prayitno, Prio Kustanto, Ismaniah Ismaniah, Ajif Yunizar Pratama Yusuf and Arman Andrian

----- Overall evaluation -----

SCORE: 1 (weak accept)

----- TEXT:

- The abstract should include the three things that need to be conveyed in the Abstract research problems from the research gap, the methods used, and the results.
- For the Introduction section, it is necessary to explain why the Support Vector Machine algorithm was chosen, connected with the findings of the gaps that will be resolved.
- In the Introduction section, it is necessary to explain the reasons for conducting an evaluation of the Impact of Mobility Restrictions, linked to the findings of the gaps that will be addressed.
- Mention each table/figure before it appears, figure 1 has not been mentioned
- In the conclusion section, it is necessary to state the limitations of the research and future research opportunities
