To: Herlawati Herlawati &lt;mrs.herlawati@gmail.com&gt;

Dear Herlawati Herlawati,

We are pleased to inform you that your paper:

PaperID: 110

Title : Corpus Usage for Sentiment Analysis of a Hashtag Twitter

submitted to The Forth International Conference on Informatics and Computing (ICIC 2019) has been ACCEPTED for an oral presentation. We cordially invite you to attend the ICIC 2019 conference in Semarang-Central Java, Indonesia.

It is mandatory to prepare the camera ready paper as per the instructions listed on <http://icic-aptikom.org/> and your paper will not be published unless the following are done:

1. Revise your paper(s) according to the reviewers' comments. The detail reviews are in the bottom of this email.
2. The accepted similarity level is maximum 20% which you may check using Turnitin or other similiar plagiarism check, and send the report together with your camera ready.
3. Format your camera ready paper as per guidelines and follow strickly the A4-IEEE format in pdf file by creating it using IEEE pdf express. (<https://www.pdf-express.org/plus>, Conference ID:47613XP)
4. 4. Send your camera ready paper to [icic4aptikom@gmail.com](mailto:icic4aptikom@gmail.com) with subject: Cameraready 2019-yourpaperID by 2 September 2019 (hard deadline).
5. Fully-completed signed IEEE copyright form and send it to [icic4aptikom@gmail.com](mailto:icic4aptikom@gmail.com) with subject: Copyright 2019-yourpaperID. As well there will be e-Copyright for IEEEExplore publication that will be informed later.
6. Fill in the registration form that can be downloaded from the ICIC website (registration) and send it to [icic4aptikom@gmail.com](mailto:icic4aptikom@gmail.com) including the proof of your payment and proof of membership (e.g. IEEE, Aptikom) and student status when it is relevant with subject: Registration 2019-yourpaperID.

Please be reminded that the due date for earlybird registration is 30 August 2019. At least one author has to register for the conference.

The conference will take place in Semarang-Central Java Indonesia, from 23-24 October 2019 with optional activities after the conference. As soon as the schedule is completed, it will be posted on the conference website.

All related conference materials can be found at <http://icic-aptikom.org/> Please let us know by email to [icic4aptikom@gmail.com](mailto:icic4aptikom@gmail.com) if you have any queries regarding registration.

We sincerely look forward to welcoming you in Semarang-Central Java, Indonesia in October 2019.

With a warmest regards,  
Media A Ayu, PhD  
Prof. Dr. A. Nizar Hidayanto  
Dr. Suryono  
Chairs of ICIC 2019

Reviews of your paper 110

SUBMISSION: 110

TITLE: Corpus Usage for Sentiment Analysis of a Hashtag Twitter

----- REVIEW 1 -----

SUBMISSION: 110

TITLE: Corpus Usage for Sentiment Analysis of a Hashtag Twitter

AUTHORS: Herlawati Herlawati, Rahmadya Trias Handayanto and Didik Setiyadi

----- Novelty -----

SCORE: 2 (Minor variations on a well investigated subject.)

----- Research Method -----

SCORE: 3 (Research method is not clearly identified, but inappropriateness is not evident)

----- Research Question -----

SCORE: 3 (Problem is incompletely reported, and the relevance to literature review is not clear)

----- Finding and Discussion -----

SCORE: 3 (Standard arguments that only partially support the conclusion)

----- English Writing -----

SCORE: 3 (fair)

----- Overall evaluation -----

SCORE: 1 (weak accept)

---- TEXT:

Please consider these recommendations for a better manuscript.

1. Add more descriptions based on related journals of other references in your whole sections.
2. Please extend your theoretical foundations.
3. No appropriate related works, what have occurred to previous studies with the same idea using your designated method/model. Please describe more especially in regards with the eminence of Naive Bayes classifier compared to other methods/frameworks. Is it really the best option to solve your problem statement?
4. Your conclusions simply reported the use of Naive Bayes not the essence of it and why it should be used in this case.

I hope all my suggestions may direct something useful for you in the future. Thank you

----- REVIEW 2 -----

SUBMISSION: 110

TITLE: Corpus Usage for Sentiment Analysis of a Hashtag Twitter

AUTHORS: Herlawati Herlawati, Rahmadya Trias Handayanto and Didik Setiyadi

----- Novelty -----

SCORE: 4 (Significant original work and novel results.)

----- Research Method -----

SCORE: 4 (Research method is not easily identified, and only partially appropriate to address the problem)

----- Research Question -----

SCORE: 4 (Problem can be identified, and related to literature review)

----- Finding and Discussion -----

SCORE: 3 (Standard arguments that only partially support the conclusion)

----- English Writing -----

SCORE: 3 (fair)

----- Overall evaluation -----

SCORE: 2 (accept)

---- TEXT:

The paper proposed the usage of a particular corpus to other different language implementations, e.g. for Indonesian language.

In the research using a Naïve-Bayes classifier to train a corpus from natural language toolkits (NLTK) corpora

The idea is good to improve Indonesian corpus.

Research methodology is clear.

Discussion is good.

Results: the capability of the Naïve-Bayes classifier both for English and Indonesian language.
