PAPER: 304

AUTHORS: Herlawati Herlawati, Rahmadya Trias Handayanto and Solikin Solikin

English Writing: 4 (good)

The actual content of the paper is a bit short. The authors should add more contents and elaborate more. For example, the authors should compare their results with the results from other researchers. Or the authors could use some methods to validate their prediction results.

The authors should also re-check their references as currently there are repeating references.
